

Everyone is wondering ...

# WHERE'S FLUFFY?

WHAT THE EXPERTS SAY:

"We are holding your Fluffy for her own protection. We shall be sending a Fluffy preservation advisor and a few ground-to-air missiles to rid you of your horrible problem."

- P. PORKBELLY, Internationalist

"... and so if you can find it in your throat to give me Alberta, I know I can help you and find Fluffy and an honourable solution to your conscience."

- R. REAGAN, Patient

"Fluffy deserves to be treated as a national resource ... and that means Federal fluff-control or no control at all, and c'est la Fluff say some. And some say it is time for someone else to hold your Fluffy for a while."

- P. E. TRUDEAU, Man-About-Town
